Central Receiving, OPAPP

This Menu of Available Community-Based Peace Advocacy and Development Programs was purposely prepared to serve as a guide for the bottom-up planning and budgeting of peace and development programs by Local Government Units as well as communities.

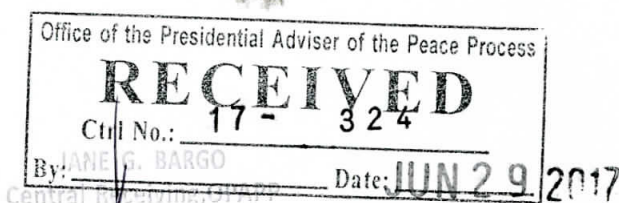

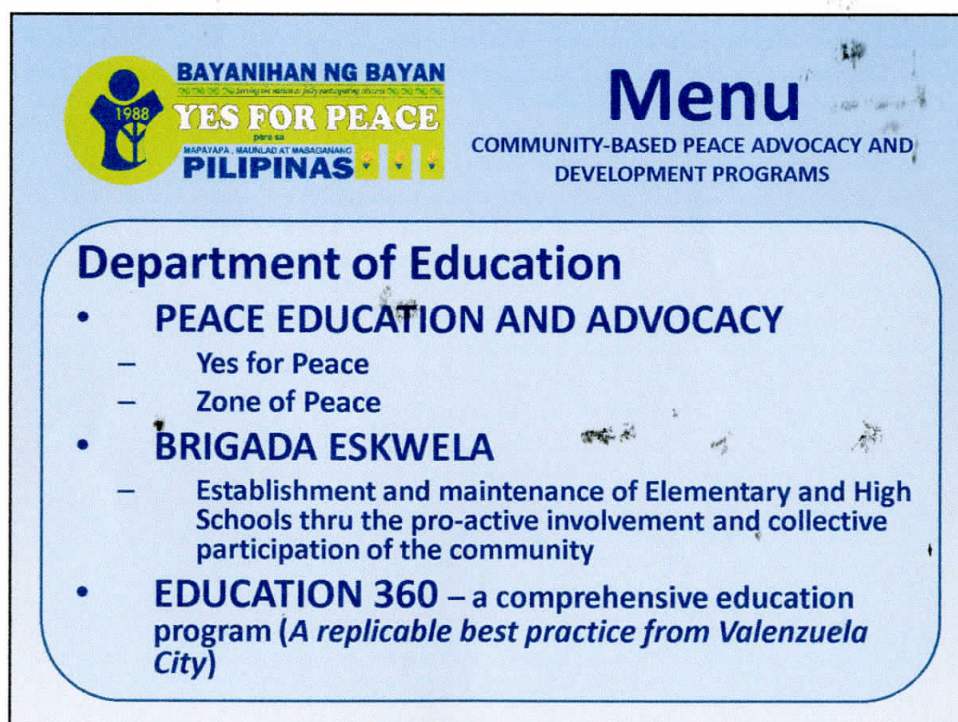

It was compiled by Learners of the Salamin Diwa ng Paglilingkod Batch 31 (SALDIWA 31) and Gabay ng Paglilingkod Batch 26 (GABAY 26) conducted by the Career Executive Service Board (CESB).

It was reinforced by inputs from Heads of agencies who have responded to the requests of the Secretariat for information on community-based programs and projects that can help in the pursuit of peace and development.

It is a work in progress and should therefore not be construed to be an end all be all list. It shall, over time, be enriched as information on available programs and projects as well as guidelines are received from government as well as non-government institutions.
